

TOT TALK'S MEXICO GIFT SET: DVD, CD, & PLACEMAT

Introducing a young child to a second language can be difficult to do, as it is hard to find products which really cater to a very young audience. With Tot Talk's series you will not have any concerns about an early introduction again. Not only does this teach children the basics of the language, but also introduces them to the culture. Combining the great puppets; Donkey, Monarch Butterfly, Turtle and Iguana, along with live children and animals, and scenes from the country, it is a great introduction to the country as a whole, rather than simply being an introduction to another language.

Children under the age of 1 will enjoy this DVD, as will older children. It is designed for children ages 1-4, but I would say even up through age 6 they should greatly enjoy it. Because of the diverse nature of the video it is great for all. The video is about 40 minutes long and features Mexican Folklore music which will inspire every child to not only embrace the language but to get on their feet and move with the beat.

The cd offers a great opportunity for singing along and reinforces what is learned while watching the video. Mexican Folklore Music shared by spanish speaking children is a great way to help your child learn and appreciate this new language and embrace the culture and its differences. A listing of songs found on the cd:

- La Cucaracha
- La Llorona
- El Chocolate
- A la Víbora de la Mar
- Jarabe Tapatío
- Cielito Lindo
- De Colores
- La Bamba
- La Zandunga
- Dále, Dále, Dále
- Las Mañanitas
- Himno Nacional Mexicano
- La Raspa
- La Bruja

The placemats feature two colorful markers for children to use while learning from the map on one side or drawing on the other. As children become more interested in the new found country, they will want to know more, including where it is and what it offers. This is a great way to help them embrace the concept of geography at an early age as well.

The products are available as a gift set, or can be purchased individually at the website. Stop by today to learn more about what Tot Talk has to offer in this language and others.
